

Dynamic Ending

Starke County has elected to utilize a 'Dynamic Ending Time'.

The 'Dynamic Ending Time' will extend the closing of the auction based upon a bid being received in the last 2 minutes of the auction. When this happens, the auction will extend for 5 minutes. This enables a person who is 'outbid' at the last second to place another bid should they want to.

Starke County has enabled this feature in an attempt to mimic a live sale as much as possible.
